Index to Civil Engineering

JANUARY—DECEMBER 1952

Subject Index

AERIAL PHOTOGRAPHY

- "Aerial photographs facilitate surveys of pavement condition," Adrian R. Le-gault, Howard M. McMaster . . . 883
Mapping expedited by aerial survey . . . 220
"Photogrammetry comes into its own," George D. Whitmore, Morris M. Thomp-son . . . 726

AGGREGATES

- "Good concrete depends on good aggre-gate," Robert F. Blanks . . . 651

AIRPORTS

- Alaska lets airport contract . . . 370
Construction in North Africa pushed . . . 220
Improvements slated for N.Y. Interna-tional Airport . . . 908
New maintenance hangars designed for air force . . . 440
New terminal to consolidate Manhattan Airlines . . . 437
N.Y. firm to build Cleveland hangar . . . 601
Puerto Rico expands airport facilities . . . 297

ALUMINUM

- ALCOA expands works in Davenport, Ia. . . 806
"Aluminum alloys for corrosion-resistant storage tanks," E. C. Hartmann, Fred L. Plummer . . . 123
Fixed bridge expedites Army operation . . . 973
Nails found non-staining . . . 170
New plants supplied by General Electric . . . 100
Output continues to gain . . . 907, 1056
Plant built in Alaska . . . 905
Production sets postwar record . . . 974
Smelting line begins operation . . . 298

AMERICAN INSTITUTE OF ARCHITECTS

- Architect-engineer cooperation is urged at 84th convention . . . 598

ASCE

Awards and Prizes

- Alfred Noble Prize to Eldo C. Koenig ('51) . . . 85
Alfred Noble Prize to Myron Tribus ('52) . . . 1048
Arthur M. Wellington Prize to Basil W. Wilson . . . 587
Awarded at Centennial Convocation . . . 587
California Chapter members winning Mead Prize five consecutive years pointed up by George W. Bohn . . . 206
Collingwood Prize for Juniors to T. Wil-liam Lambe . . . 587
Construction Engineering Prize to John N. Newell . . . 588
Daniel W. Mead prizes to Charles E. Negus, Jr., and Howard Payne ('52) . . . 1044
Daniel W. Mead Prizes to Edgar G. Baugh and Marion K. Harris ('51) . . . 88
Freeman Fellowship open . . . 1046
Hoover Medal to C. D. Howe . . . 595
J. C. Stevens Award to Harold R. Henry . . . 588
J. Waldo Smith Prize to James R. Bar-ton . . . 595
James Laurie Prize to John M. Kyle . . . 587
James W. Rickey Medal to Donald J. Bleifuss . . . 588
John Fritz Medal to Benjamin Fairless ('53) . . . 424
Leon S. Moisseiff Award to Mario G. Salvadori . . . 588
New Daniel Mead Prize contest is an-nounced . . . 595
New J. Waldo Smith Fellowship an-nounced . . . 287
Thomas Fitch Rowland Prize to Clarence E. Keefer . . . 587
Washington Award to Henry T. Heald ('52) . . . 356

Badges

- Junior members may have lapel but-tons . . . 211

ISSUE	PAGE NUMBERS
January	1-122
February	123-176
March	177-248
April	249-312
May	313-386
June	387-460
July	461-532
August	533-618
September	619-846
October	847-922
November	923-1000
December	1001-1078

Ballots

- Ballots for 1953 officers canvassed . . . 593, 900
Discussion of percentage of members vot-ing by Jacob Feld . . . 886

Board of Direction

- Actions in Detroit in December . . . 154
Actions in New Orleans in March . . . 281
Actions in San Diego in May . . . 425
Actions in Denver in June . . . 497
Actions in New York in October . . . 958
Appropriations authorized by Executive Committee . . . 1046
Canadian generating station honors Otto Holden . . . 505

Centennial Celebration

- Activities reviewed . . . 892
"Centennial of Engineering, 1952," Wil-liam N. Carey, E. L. Chandler . . . 84
Construction sessions to be moved . . . 360
Contributors to financing listed . . . 289, 429
Details announced . . . 584
Foreign engineers entertained . . . 897, 899
Ladies' program and participation of foreign engineers announced . . . 499
Lohr explains Centennial aims to Cincin-natti engineers . . . 285
Members make final plans to attend Convocation in Chicago, Sept. 3 to 13 . . . 422
N.Y. Founder Societies hear Vannevar Bush . . . 360
New banner signals Centennial . . . 356
Objectives amplified at celebration of N.Y. Founder Societies . . . 357
Plans for first-day covers approved . . . 505, 592
Preprints available . . . 779
Programs:
Symposiums of General Interest . . . 564
Technical and Social Program . . . 572
Special issue of CIVIL ENGINEERING in September
Symbol for Centennial approved . . . 211
Symposium arranged . . . 153
Postage stamp for Centennial . . . 155, 782
Technical program for Centennial takes form . . . 85, 210
Welcome issued . . . 779
"What about the next hundred years?" Joseph H. Ehlers . . . 195

CIVIL ENGINEERING

- Available in microfilm . . . 506

Code of Ethics

- Board of Direction solicits information from consulting engineers . . . 593

Committees

- 1952-1953 personnel confirmed by Board
Task Committee to study Society's tech-nical organization . . . 157

Fees

- See ASCE—Salaries and Fees

History of Society

- "Persons and places in ASCE history" . . . 780
Settlement of West discussed by Robert S. Mayo . . . 954

Honorary Members

- Four new members elected . . . 585

Insurance

- Plan pays first accidental death claim . . . 88
Reduced rates available to Juniors in group disability plan . . . 506

Joint Activities

- Engineers meet with U.S. Civil Service Commission . . . 426

Local Sections

- Alabama Section has Centennial cele-bration . . . 1045
Alaska Section organized . . . 211
Initiates newsletter . . . 958
Board of Direction advocates District Councils and sub-sections . . . 592
California Conference of Local Sections, May 2-3 . . . 157, 284
Cincinnati Section supports President's objectives, letter by E. S. Birken-wald . . . 150
Dayton Section host to District 9 Coun-cil meeting . . . 289
District 7 Council meets with Wisconsin Section . . . 498
Georgia Section elects officers . . . 155
Has Centennial celebration . . . 429
Members form Augusta Sub-Section . . . 86
Ithaca Section program honors Centen-nial . . . 506
Kentucky Section entertains ASCE of-ficers . . . 902
Michigan Section host to Executive Committee . . . 86
Mid-South Section spring meeting . . . 596
Mohawk-Hudson Section sponsors soil mechanics symposium . . . 1049
Montana Section elects officers . . . 967
Northwestern Section awards scholar-ship . . . 211
Oregon Section sponsors refresher courses . . . 1046
Pacific-Northwest Conference . . . 152, 599
Panama Section honors Centennial . . . 966
Philadelphia Section celebrates Centen-nial . . . 428
Puerto Rico Section awards student prize . . . 508
Holds annual meeting . . . 158
Sponsors Inter-American Convention
"Sections select seven wonders of civil engineering," Charles M. Bayer . . . 1043
South Dakota Branch of Northwestern Section tour Fort Randall Dam . . . 1050
Spokane Section sponsors Centennial observance . . . 964
Sponsor large spring conferences . . . 426
Tennessee Valley Section holds meeting . . . 1048
Texas Section plans spring meeting . . . 211
Branches elect officers . . . 1049
Venezuelan Section elects officers . . . 290
Washington, D.C., Section sparks Cen-tennial celebration . . . 1045
West Virginia Section meets . . . 962
Wisconsin Section sponsors District 7 Conference . . . 289
Holds meeting . . . 1049

Manuals

Manual on cylindrical concrete shell roofs	964
Manual on job evaluation and salary surveys issued	798
Professional practice manual issued	209
Story of a Society manual	1046

Meetings

Annual Business Meeting, New York, Oct. 13	900
Denver Convention, June 16-20	
Activities described	208, 283, 362, 424, 496
Preprints available	498
Program	348
Inter-American Convention of Civil Engineers, San Juan, Puerto Rico, Nov. 12-16	
Activities described	798, 1040
Program	889
New Orleans Convention, March 5-7	
Activities described	152, 280
Preprints available	287
Program	80
San Francisco Convention, March 3-7	
Activities described	936, 1042

Membership

Finnish members meet	289
Rating for services to profession suggested by Clarence S. Jarvis	206
Veteran members listed	782

Officers

Eleven new officers elected for 1953	939
--------------------------------------	-----

President

Walter L. Huber	
At Metropolitan Section Dinner Meeting	957
Inaugural address, "A second century of service begins"	932
Nominated	354

PROCEEDINGS

DeForest A. Matteson, Jr., becomes assistant editor	425
"Proceedings Separates—a two-year review," W. N. Carey	500

Salaries and Fees

Manual on job evaluation and salary surveys issued	798
Survey data of Salary Committee used in Baltimore	155

Staff

Matilda Steinbrenner, former style editor for technical publications, dies	426
--	-----

Student Chapters

California Chapter members winning Mead Prize five consecutive years pointed up by George W. Bohn	206
Committee on Student Chapters meets in Chicago	85
Iowa State College Student Chapter meets with Executive Secretary	90
Receive Committee commendation	501
Sponsored regional spring conferences	504
University of Pittsburgh endorses Centennial	216

Technical Divisions

Highway Division appoints Local Section contacts	355, 510
Hydraulics Division to meet with IAHR	964
Irrigation and Drainage Division sponsors U.S. membership in International Commission on Irrigation and Drainage	897
Soil Mechanics and Foundations Division to collaborate with German soil engineers	395
Structural Division Committee report "Can you help the Structural Division?" Ernest C. Hartmann	428
"Structural Division to try something new," Ernest C. Hartmann	209
"What is the Structural Division doing?" Ernest C. Hartmann	286
Concludes its reports	1046

TRANSACTIONS

1952 edition available	1044
Set wanted	92

Unity of Profession

Plan receives board support	286
"We can have increased unity in our profession," Carlton S. Proctor	316

AMERICAN SOCIETY OF ENGINEERING EDUCATION

Need for engineers stressed at meeting	602
Solicits aids for engineering teaching	97
Studies technical library use	974

AMERICAN SOCIETY OF MECHANICAL ENGINEERS

Officers elected at annual meeting	94
------------------------------------	----

AMERICAN SOCIETY FOR TESTING MATERIALS

Announces research on materials	367
Celebrates 50th anniversary	600
Elects new executive secretary	973

AMERICAN STANDARDS ASSOCIATION

Asks U.S. leadership in developing standards	509
--	-----

APPLIED MECHANICS

"Applied mechanics specialist is consultant to engineers," J. N. Goodier	543
--	-----

ATOMIC ENERGY

Britain installs first atomic heating system	161
Commercial power from nuclear fission studied	971
Concrete saucer to house Navy plant	971
Conferences to explore bomb effects on structures	435
Contract award expands Hanford program	1053
Contract for process piping at Paducah	160
Contract given for H-bomb facilities	294
Contract for nuclear research announced	226
Contracts to expand Oak Ridge, Paducah plants	805
Contractor for Ohio plant invites subcontractor inquiry	974
Electric power generated from atomic heat energy	162
Engineers face increasing demand for radioactive labs	220
Eniwetok Proving Grounds contract renewed	222
Gaseous diffusion plant to be built in Southern Ohio	908
Laboratory established for atomic power development	367
More steel in bomb-proof buildings	164
Nuclear testing facilities authorized	808
"Radioactive contamination, continuing problem in water supply engineering," Roy J. Morton	722
Research center to be built in Europe	1057
Savannah River Plant under construction	295
Steam plant to power Paducah project	96
Symposium, "How to build against atomic attack,"	
Foreword by Frank L. Weaver	392
"Shelter is the engineer's job," James T. Martin	392
"Design of protective structures briefed," A. S. Neiman	393
Discussion by Joseph Salzman	563
"The status of atomic power," B. R. Prentice	1017

AWARDS AND PRIZES

Applications for Science Foundation awards invited	1054
General Motors sponsors contest on highway problems	1054
Moles present awards	218
See also Welding	

BEAMS

"Analysis of anchor bolts and concrete piers for large stills and kettles," Andrew A. Brown	491
"Reinforced concrete beam formulas extended to steel-column-base design," Lester J. Gitter	340
"Uniformly loaded beams designed by chart," William H. Connolly	339
Discussion by Michael Bar Shany	1037

BID NOTICES

"Can errors in bids be corrected?" Walter C. Sadler	537
---	-----

BINDING

Library Binding Institute to assist in binding periodicals	95
--	----

BOLTS

"High-strength bolts—a new concept in structural connections," T. R. Higgins, R. J. Ruble	760
---	-----

BRIDGES

"A survey of timber highway bridges in the United States," Raymond Archibald	755
Ancient Italian bridge reported near collapse	437
"Atlantic Beach Bridge supported on 90-ft piles weighing 30 tons," Lloyd I. Monroe, Thomas C. Barnett	200
Chesapeake Bay Bridge opened to traffic	804
"Concrete box-girder bridge replaces obsolete structure at Davall, Wash.," Homer M. Hadley	130
Contract let for N.Y. State Thruway	909
Bridge across Hudson River	
Discussion of iron bridge by James R. Hardesty	886

Engineers named for new Delaware River bridge	1053
"Fifteen-mile toll bridge under construction across lower Tampa Bay," Maurice N. Quade	249
Discussion by Donovan H. Lee	421
Discussion by Maurice N. Quade	421
George P. Coleman Bridge at Yorktown dedicated	435
"Korean bridge girders are replaced on fast schedule," Eugene P. Fortson, Jr.	138
New Mississippi bridge at New Orleans studied	598
New steel bridges receive AISC aesthetics awards	972
New type built in Germany	814
"Pipeline bridge stabilized with diagonal rope stays," D. B. Steinman	177
Prestressed concrete bridge at Heilbronn, Germany, has 353-ft span	514
"Steel girders hung from concrete cantilevers (Portage Canal Bridge, Wash.)," Homer M. Hadley	1001
Steel work for Chesapeake Bay Bridge completed	435
Suspension bridge to span Halifax Harbor	600
Venezuela constructs bridge on Autopista highway	601
See also Caissons, Piers, Prestressed Concrete, Railroads, Welding	

BUILDING RESEARCH ADVISORY BOARD

Material issued on conference on construction of radioactive lab.	516
Need for research cited at meeting	434

BUILDINGS

Army to build seven hospitals	808
Bids for VA hospital in Dallas	98
"Cantilever frames support thin-shell roof," Boyd G. Anderson	544
Contract awarded for ordnance depot unit	164
Contract awarded for VA hospital in Los Angeles	904
"Eight rail lines using five stations construct single terminal," C. J. Wallace (New Orleans Passenger Terminal)	318
"Foundation repair saves a Texas sawmill," R. J. Brentzel	136
Government to build warehouses in N.J.	603
Huge equipment plant started	160
"Laminated timber permits flexibility of design," Alan D. Freas	756
Materials allotted for school construction	436
"One-story Vierendeel trusses ideally suited to school building," Raphael H. Courland	878
"Open-caisson method used to erect Tokyo office building," Arnold C. Mason	944
Philippine government to build veterans' hospital	97
"Steel arch (roof) analyzed and designed by semigraphical methods," Milo S. Ketchum	538
"Ways to cut building costs shown by General Accounting Office Building, Washington, D.C.," W. E. Reynolds	412
"Welded multi-story structures save steel and money," Boyd S. Myers	267
"Wind pressure on elementary building forms evaluated by model tests," J. W. Howe	330
World's tallest stone-storage silo	370
See also Building Research Advisory Board, Roofs, White House	

CAISSONS

Bell-bottom caissons support Detroit city-county building foundations	438
"Deep sand-island caissons support Cincinnati steam plant," Leonard V. Smoot	550
"Open-caisson method used to erect Tokyo office building," Arnold C. Mason	944

CANALS

"Model studies aid in design of Brazilian hydro project," Emmett M. Laursen (Jan. '51)	342
Discussion by Franklin T. Matthias	

CEMENT

Cement plant goes into production	94
See also Concrete	

CENTENNIAL OF ENGINEERING

See ASCE—Centennial Celebration

CITY PLANNING

"Our expanding cities demand good planning," Lawrence V. Sheridan	685
Urban problems studied at businessmen's conference	513

CIVIL SERVICE

Promotion by examination discussed by A. S. Macgregor	150
---	-----

COLUMNS

"Add-area method extended to include composite sections," Dewey M. McCain	500
---	-----

"Analysis of anchor bolts and concrete piers for large stills and kettles," Andrew A. Brown	491
Discussion by Marvin A. Larson	953
"Design method for eccentrically loaded steel columns fits any code," Walter L. Willig, Charles W. Cunningham (Dec. '51)	
Discussion by John M. Biggs	151
Discussion by Marvin A. Larson	151
Discussion by D. M. McCain	346
Discussion by authors	493
"Reinforced concrete beam formulas extended to steel-column-base design," Lester J. Gitter	340
Discussion by Marvin A. Larson	953

CONCRETE

ACI convention highlights prestressed concrete discussion	295
Officers announced	1058
"Good concrete depends on good aggregate," Robert F. Blanks	651
Granular-steel finish improves wear resistance of concrete	370
"Important developments in concrete for dams reviewed," T. V. D. Woodford	180
"Improved techniques lower cost of concrete construction," John R. Hardin	948
"Is research in reinforced concrete adequate?" R. F. Blanks	142
"New York's Pier 57 founded on two 27,000-ton reinforced concrete boxes," John M. Buckley, E. A. Verpillot	188
"Steel girders hung from concrete cantilevers (Portage Canal Bridge, Wash.)," Homer M. Hadley	1001
See also Cement, Forms, Prestressed Concrete	

CONCRETE, THIN SHELL

"Cantilever frames support thin-shell roof," Boyd G. Anderson	544
---	-----

CONSTRUCTION COSTS

"Improved techniques lower cost of concrete construction," John R. Hardin	948
Symposium, "Effect of design on construction costs"	
"Coordinate design with construction methods," W. W. Wanamaker	847
"Develop cooperation between engineers and contractors," Ralph E. DeSimone	850
"Construction economy is basic in Reclamation design," L. N. McClellan	854
"Train design engineers in construction realities," Glenn B. Woodruff	858
"Ways to cut building costs shown by General Accounting Office Building, Washington, D.C.," W. E. Reynolds	412

CONSTRUCTION EQUIPMENT

AED meeting studies construction regulations	221
Allis-Chalmers acquires LaPlant-Choate Co.	976
Army develops tractor for arctic use	1057
Heavy equipment speeds Idaho power dam project	95
"Mechanization has revolutionized construction work," Francis Donaldson	637
"Modern excavation methods and equipment," H. H. Everest, Jr.	659
"World's best highway system produced by modern equipment," A. N. Carter	628

CONSTRUCTION INDUSTRY

AGC nominates 1953 officers	1058
ASCE-AGC Joint Cooperative Committee meets in Chicago	895
"Construction—a growing field for the civil engineer," Dwight W. Winkelman	626
Emergency construction problems studied at AGC annual convention	294
"Highway contractors study the big job ahead," Archie N. Carter	197
Problems studied by Chamber of Commerce group	222
"What construction means to America," Willard Chevalier	934

CONSTRUCTION METHODS

"Sectional steel pipe provides economical shoring"	78
--	----

CONSTRUCTION VOLUME

Activity seen in upswing	435
Monthly activity reported	94, 218, 298, 366, 436, 518, 806, 904, 970, 1052
Record outlay for 1952 foreseen	512
Record outlays in first half of 1952	602
Total for 1951 placed near \$30 billion	160

CONTRACTS

"Conflicting state laws affect interstate contracts," Walter C. Sadler	184
"Construction by contract method—an American tradition," H. E. Foreman	640
Negotiated-contract procedures changed by Corps of Engineers	356

DAMS

Army recommends four dams in Pa.	600
Cheatham Dam contract awarded	296
Discussion by Horace P. Boardman of his article, "Buttress-type dam with curved upstream face proposed" (June '51)	79
"Electric analog indicates effect of horizontal earthquake shock on dams," Carl N. Zangar, R. J. Haeffeli	278
"Fort Randall Dam to provide more storage on Missouri River," Henry J. Hoeffler	474
Foundation contract let for Kans. Dam	370
Harlan County Dam, Nebr., dedicated	515
Heavy equipment speeds Idaho power dam project	95
Hungry Horse Dam is dedicated by Truman	974
"Important developments in concrete for dams reviewed," T. V. D. Woodford	180
"Improved techniques lower cost of concrete construction," John R. Hardin	948
"Power facilities at South Holston Dam include submerged intake," O. Lavik	74
"Progress in earth-dam design and construction in the United States," Thomas A. Middlebrooks	702
Puerto Rico builds water supply system	219
Rogue River dam site found unsuitable	170
"Tignes Dam in French Alps constructed with American equipment," Paul A. Montagne	923
"Trend toward multipurpose developments," James S. Bowman	736
U.S. Commission on Large Dams meets in Chicago	897, 900
See also Reservoirs, U.S. Bureau of Reclamation	

DEFENSE PROGRAM

Alaska pushes construction program	1057
Civilian metal allotments cut	224
Contracts awarded for Alaska projects	603
Cooperation between defense and construction industry urged	297
EJC Manpower Commission writes Defense Secretary seeking better use of engineering manpower	282
Large volume of defense work for Alaska Materials allotted for commercial construction	95
Military manpower needs and resources reviewed	297
NPA releases materials	1055
Renegotiation Act handled by Board	1055
See also Atomic Energy, Engineers Joint Council, Military Engineering	219

DOCKS

W. Va. plant to have new dock facilities	909
--	-----

DREDGING

"Bucket ladder dredges pay off," C. M. Romanowitz	746
"Modern hydraulic dredging—a product of experience," Carl H. Giroux	740
Discussion by Carl P. Kaufmann	1038

EARTHMOVING

"Modern excavation methods and equipment," H. H. Everest, Jr.	659
---	-----

EARTHQUAKES

"Electric analog indicates effect of horizontal earthquake shock on dams," Carl N. Zangar, R. J. Haeffeli	278
"Hydrodynamic pressure due to horizontal earthquake shock computed by curves," Ven Te Chow (Sept. '51)	113
Discussion by C. N. Zangar	

ECONOMICS OF ENGINEERING

Symposium, "Effect of design on construction costs," W. W. Wanamaker, Ralph E. DeSimone, L. N. McClellan, Glenn B. Woodruff	847
"Ways to cut building costs shown by General Accounting Office Building, Washington, D.C.," W. E. Reynolds	412

EDUCATION

Fellowships in housing available in Colombia	518
"Level of engineering education must be raised" (report of ECPD Committee on Adequacy and Standards of Engineering Education)	72
"Sanitary engineers talked by APHA as national resource," Francis B. Elder	399
See also American Society for Engineering Education, Engineers' Council for Professional Developments, National Defense, and department "New in Education"	

EMPLOYMENT

"Engineers must be upgraded to solve manpower shortage," S. C. Hollister	666
"Making the breaks," Arthur R. Pell	548
Placement system set up for Army scientific personnel	908
Specialists needed for foreign assignment	436

ENGINEERING FOUNDATION

Sponsors new volume in series of Engineering Societies Monographs	155
---	-----

ENGINEERING INSTITUTE OF CANADA

Attendance at Centennial Convocation urged at 66th annual meeting	434
---	-----

ENGINEERING MANPOWER

Thomas Alva Edison Institute investigates engineer shortage	166
---	-----

ENGINEERS AND ENGINEERING

See Professional Advancement

ENGINEERS' COUNCIL FOR PROFESSIONAL DEVELOPMENT

"Level of engineering education must be raised," (Report of Committee on Adequacy and Standards of Engineering Education)	72
Three civil engineering curricula added to list of accredited colleges and universities	157

ENGINEERS JOINT COUNCIL

Engineering Manpower Commission sponsors utilization conference in Chicago	896
Manpower Commission writes Defense Secretary seeking better use of engineering manpower	282
Military manpower needs and resources reviewed	1055
U.S. and Latin-American Engineers plan UPADI Convention	502

EXPLOSIVES

"Users of explosives are liable for all damage," Walter C. Sadler	335
Discussion by Harold H. White	493

FILMS AVAILABLE

Corrosion in action shown in film	436
Fluid mechanics and hydraulics films	901
Labrador Railroad construction film	102

FLOOD CONTROL

"Methods of general application developed for finding peak flood flow," A. H. Davidson	418
Discussion by Tate Dairymple	888
"Morganza Floodway to steal 600,000 cfs of Mississippi's thunder," D. L. White	272
Funds to advance Missouri flood control	804
"Record floods again strike Midwest," Wright Hiatt	369
River development planned for Poland	1056

FLUID MECHANICS

"Fluid mechanics supports tasks of civil engineering," Hugh L. Dryden	329
See also Hydraulics	

FOREIGN ENGINEERING WORKS

"Alcan—British Columbia power project under construction," W. G. Huber	939
Canada continues hydroelectric construction	164
"Ceylon restores its ancient irrigation works," Paul von der Lippe (Sept. '51)	113
Discussion by H. de S. Manamperi	563
Discussion by John R. Philip	
Chicago firm engaged for ECA survey of Philippine Railroad	98
Chile harnesses water power from Andes	300
"Far East needs common-sense engineering aid," A. V. Karpov	408
France builds hydroelectric project	161
Indian power plant nears completion	905
"Men, machines and money bring out Labrador iron ore," F. C. Wardwell	404
N.Y. firm retained on Seine River bridge	808
"Open-caisson method used to erect Tokyo office building," Arnold C. Mason	944
Philippine government to build veterans' hospital	97
Philippine improvements authorized by MSA	808
River development planned for Poland	1056
"Tignes Dam in French Alps constructed with American equipment," Paul A. Montagne	923
Turkish contract received by N.Y. firm	298
Venezuela constructs superhighway	601
Venezuela speeds work on Caracas-La Guaira Highway	1053
Venezuela ore project contracts awarded	161
See also Military Engineering	

FORMS

"Shoring with steel scaffold cuts costs"	883
--	-----

FOUNDATIONS

"Anchored foundation resists frost heave," Donald B. McKinley	140
"Deep sand-island caissons support Cincinnati steam plant," Leonard V. Smoot	550
"Foundation repair saves a Texas sawmill," R. J. Brentzel	136

"Sliding stability of retaining walls," Gordon P. Fisher, Robert M. Mains . . .	490
Discussion by James D. Wall . . .	953
"Thaw-blast method prepares permafrost foundation for Alaska power plant," Robert W. Waterhouse, A. Nelson Silis . . .	126
See also Caissons, Soil Mechanics	

GROUTING

"Lock No. 5, Monongahela River, refaced by grout-intrusion method," J. S. Minnotte . . .	872
--	-----

HANGARS

HEATING

"Can waste heat from refuse incinerators be employed economically?" F. R. Bowerman, H. B. Gotaas . . .	336
--	-----

HIGHWAY RESEARCH BOARD

Cooperates in road test planning . . .	100
Initiates parking survey . . .	98
Meeting stresses need for financing studies . . .	220

HIGHWAYS

AASHTO drafts statement on new federal-aid legislation . . .	96
ARBA holds 50th annual meeting . . .	219
"A long look at highway maintenance," Rex M. Whitton . . .	673
"American highways—how to measure their adequacy," Roy E. Jorgensen . . .	668
Chicago pushes work on Congress St. super-highway . . .	906
Definitions adopted by AASHTO . . .	806
Expressway plan developed for Milwaukee Finish of N.Y. Thruway is expected in 1954 . . .	1052
"Future development of the art and science of highway engineering," Thomas H. MacDonald . . .	876
General Motors sponsors contest on highway problems . . .	1054
Gulf Freeway in Tex. dedicated . . .	806
Houston to have new freeway . . .	296
"Iowa's stop-gap resurfacing program speeds highway improvement," Walter H. Root . . .	402
Milwaukee initiates expressway system . . .	296
"Proposed Mississippi River parkway to utilize existing highways," J. Lester White . . .	255
"The changing picture in highway traffic," D. Grant Mickle . . .	678
"Tunnel and viaduct to ease Seattle's traffic troubles," Ralph W. Finke . . .	1025
Venezuela speeds work on Caracas-La Guaira Highway . . .	1053
"World's best highway system produced by modern equipment," A. N. Carter . . .	629
See also Bridges, Toll Roads	

HISTORY OF ENGINEERING

"A century of progress in civil engineering," J. K. Ping . . .	620
"Civil engineering looks to the future," John B. Wilbur . . .	662
Engineering advancements discussed by Philip O. Macqueen . . .	206
For period 1852-1952 see Centennial issue, September 1952	

HOUSING

Directory of modular coordination planned . . .	602
HFAA grant will aid house-building techniques . . .	906
June decline in starts noted . . .	810
Rises 13 percent in February . . .	300
"Soil-cement for house construction," Ralph Stone . . .	1005

HYDRAULICS

Borax as corrosion inhibitor . . .	300
"Complex backwater problems solved by simple curves," Irving Joseph . . .	79
"Hydrodynamic pressure due to horizontal earthquake shock computed by curves," Ven Te Chow (Sept. '51) . . .	113
Discussion by C. N. Zangar . . .	974
Laboratory at Cornell aids industrial testing . . .	974
"Model studies aid in design of Brazilian hydro project," Emmett M. Laursen (Jan. '51) . . .	342
Discussion by Franklin T. Matthias . . .	342
"Normal" size distribution found in samples of river-bed sand," T. Blench . . .	147
Discussion by Vito A. Vanoni . . .	344
"Two nomographs developed for trapezoidal channels," Charles Grant Edson . . .	148

HYDROELECTRIC POWER

"Alcan—British Columbia power project under construction," W. G. Huber . . .	939
Canada continues hydroelectric construction . . .	164

Chile harnesses water power from Andes . . .	300
Discussion of Brazil's Paraiba-Pirai Diversion Project by Adolph J. Ackerman . . .	112
France builds hydroelectric project . . .	161
"One hundred years of water power," W. F. Uhl . . .	731
Discussion by Charles A. Pohl . . .	885
Discussion by C. C. Cragin . . .	954
Rising electric power demand to continue . . .	1054
Wolf Creek project starts power production . . .	367
See also Niagara Falls, Power Plants, TVA	

INCINERATORS

"Can waste heat from refuse incinerators be employed economically?" F. R. Bowerman, H. B. Gotaas . . .	336
"New York City turns to incineration," C. A. Rogus . . .	1030

INSTRUMENTS

"Flying typewriter" aids computation of data . . .	298
"Home-made apparatus makes accurate torsion tests," W. F. Saunders . . .	1036
Pocket-size computing machine developed . . .	1056
See also Surveying and Mapping	

IRRIGATION

"Ceylon restores its ancient irrigation works," Paul von der Lippe (Sept. '51) . . .	113
Discussion by H. de S. Manamperi . . .	563
Discussion of the Basin Account and the Interest Component by J. C. Stevens . . .	887
"Progress in irrigation engineering," L. N. McGlellan . . .	691
"Puerto Rico constructs new irrigation project," Antonio Lucchetti . . .	868
"Social and economic implications of irrigation development," J. W. Dixon . . .	689
"Water from Pacific Northwest for deserts of Southwest," S. P. McCasland . . .	143

LABOR RELATIONS

"Labor-management problems in the construction industry," Lester C. Rogers . . .	633
--	-----

LABORATORIES

A. P. Richards to head marine research laboratory . . .	162
---	-----

LAW

"Can errors in bids be corrected?" Walter C. Sadler . . .	537
"Conflicting state laws affect interstate contracts," Walter C. Sadler . . .	184
"Users of explosives are liable for all damage," Walter C. Sadler . . .	335
Discussion by Harold H. White . . .	493
"Water law in the United States," S. T. Harding . . .	696

LEGISLATION

See Engineers Joint Council, Law, and department "Notes from the Capital"	
---	--

LOCKS

"Lock No. 5, Monongahela River, refaced by grout-intrusion method," J. S. Minnotte . . .	872
--	-----

MATERIALS TESTING

Purdue has new testing machine . . .	370
--------------------------------------	-----

MEETINGS AND CONFERENCES

CIGRE conference held in Paris . . .	292
Public works problems studied at APWA congress . . .	906
UPADI meeting to be held in New Orleans . . .	209

METALS

"Men, machines and money bring out Labrador iron ore," F. C. Wardwell . . .	404
New technique adds to source of iron supply . . .	437
Nickel plant in Cuba reopened . . .	222
Titanium output reaches record high . . .	221

MILITARY ENGINEERING

"Korean bridge girders are replaced on fast schedule," Eugene P. Fortson, Jr. . . .	138
See also Seabees	

NATIONAL SCIENCE FOUNDATION

Allotment permits start of program . . .	94
Issues research grant guide . . .	162

NIAGARA FALLS

"More U.S. power available at Niagara," Ivan Satten, C. G. Belousow . . .	256
---	-----

PAVEMENTS

"Aerial photographs facilitate surveys of pavement condition," Adrian R. Legault, Howard M. McMaster . . .	883
Load effect on bituminous pavements to be tested . . .	513
See also Highways	

PENSTOCKS

"Photoelastic stress analysis solves penstock reinforcement problem," H. J. Kahm . . .	866
--	-----

PIERS

Contract awarded for Thruway Bridge piers . . .	1058
Concrete box substructure for Pier 37 nears completion . . .	599
"Concrete piles repaired by caisson method," I. Leon Glassgold . . .	203
Hudson River pier has concrete box substructure . . .	162
"New York's Pier 37 founded on two 27,000-ton reinforced concrete boxes," John M. Buckley, E. A. Verpillot . . .	188
Substructure of Pier 37 nears completion . . .	1054

PILING

"Concrete piles repaired by caisson method," I. Leon Glassgold . . .	203
--	-----

PIPELINES

Floating derrick lays gas pipeline under Hudson . . .	437
Natural gas pipeline crosses Mississippi . . .	224
Natural gas pipeline to service new area . . .	805
"Pipeline bridge stabilized with diagonal rope stays," D. B. Steinman . . .	177
Symposium, "Major pipeline crossings of Mississippi River": . . .	
"How to choose a site," P. H. Timothy . . .	202
"How to build and maintain a crossing," R. P. Gregory . . .	264

POPULATION FORECASTS

"More accurate population estimates by means of logistic curves," John E. McLean . . .	133
Discussion by Harold T. Larsen . . .	207
Discussion by author . . .	886

PORTS AND MARITIME STRUCTURES

New Zealand builds four-berth ocean-freight terminal . . .	512
See also Piers	

POWER

Mobile electric set relieves power crisis . . .	810
"More U.S. power available at Niagara," Ivan Satten, C. G. Belousow . . .	256
"Power facilities at South Holston Dam include submerged intake," O. Lavik . . .	74

POWER PLANTS

Agreement made for new AEC Ohio plant . . .	970
Contract awarded for Gavins Point Project . . .	368
"Deep sand-island caissons support Cincinnati steam plant," Leonard V. Smoot . . .	550
Indian plant nears completion . . .	905
Steam plant to power AEC Paducah project . . .	96
Work proceeds on new Miss. plant . . .	600
See also Atomic Energy, Hydroelectric Power	

PRESTRESSED CONCRETE

ASCE-ACI joint sessions draw crowds in Chicago . . .	899
"Big loads—no steel result in world's heaviest prestressed building girders," T. Y. Lin . . .	927
Bridge at Heilbronn, Germany, has 353-ft span . . .	514
Construction organization formed . . .	219
German structure demonstrates prestressing potentialities . . .	221
Industrial application of prestressed concrete saves steel . . .	163
"Is prestressing the answer?" Jacob Feld . . .	555
Discussion by G. Magnel . . .	954
New system for prestressing beams . . .	907
Proceedings of first U.S. Conference issued . . .	211
Sectional design and two-stage loading are applied to cast-in-place prestressed girders . . .	368

PRIZES

See Awards and Prizes

PROFESSIONAL ADVANCEMENT

"Engineers face major responsibilities in the next hundred years," Carlton S. Proctor . . .	619
"Engineers must be leaders in world of tomorrow," Carlton S. Proctor . . .	472
Discussion by Charles W. Griffin . . .	887
Discussion by author . . .	887
"Engineers needed on new frontier," A. K. Perlman . . .	1008
Engineers' role should be publicized, discussion by Ernest Nussbaum (Dec. '51) . . .	150
Discussed by R. B. Macfarlane . . .	493
"What about the next hundred years?" Joseph H. Ehlers . . .	195
